

## **2024-2025 Life Membership Program.**

Department of Florida Leadership,

We are going to kick off our life membership program for this year on **Nov 1<sup>st</sup>, 2024**, and it will be controlled 100% by my office.

This program is for our current annual members, reinstates that are on your membership roster only.

We will only reimburse those Post that do the correct thing and follow the rules for the program.

This is a very simple process; The Post encourages the member to pay ½ of the life membership and the Post pays the other half. I will then verify the submitted form from the Post that has been correctly and clearly submitted and then I will reimburse the Post the ½ they paid once the member shows up as a life member on the department roster.

We will only reimburse the Post ½ of the life membership for any current member that's dues are due. This does not include new members, and it does not include anyone that has joined recently. This is for a member that has been a member, and their dues are ready to be renewed.

Comrades, please understand this is a department program and all expenses must and will be verified and approved by myself with the office staff. I want nothing more than this program to be successful, and we sign up more life members, but it will be done correctly.

**Please submit the form only on the 25<sup>th</sup> of each month only.**
